

## Psychiatric Nurse Practitioner-PMHNP or Psychiatrist

Creekside Collaborative Therapy, PLLC: A Network of Trauma-Informed Clinicians, is seeking a PMHNP or Psychiatrist to contract with our group practice for 2-4 days per week. We are a multidisciplinary group of like-minded, talented, and experienced mental health professionals including LCSW's, LMFT's, CACIII's, LPC's, LPCC's, interns, and six other PMHNP's. We will provide you with a steady client base (self-pay, commercial insurance, and Medicaid clients), complete the insurance credentialing process, provide you with office space if desired (although we are mostly providing telehealth at this time), do your billing, provide you with an EMR, and provide other administrative support as negotiated. You will be reimbursed a competitive percentage based on what is collected from clients and payor sources. Depending on client acuity and the specific insurance company this could range from \$100-\$200 per billable hour (or more) but tends to average around \$150-\$175/clinical hour. Services will be provided via telehealth, in-office, or hybrid depending on preference. Our therapists and support staff will collaborate with you to meet client needs and address urgent situations should they arise. We are a close group of clinicians and offer peer consultation twice per month if interested. Our office location is on Quebec between Arapahoe & Orchard in Centennial. Please visit our website at [www.creeksidecollaborativetherapy.net](http://www.creeksidecollaborativetherapy.net).

### Responsibilities

- Complete initial psychiatric evaluations to determine diagnosis and to make medication recommendations as appropriate.
- Provide ongoing medication management for assigned clients.
- Engage in brief counseling/therapy during appointments as indicated.
- Provide prescriptions for psychiatric medications to assigned clients as assessed appropriate.
- Document in the medical record.
- Complete prior authorizations for medications as needed.
- Collaborate with internal and external clinicians.

### Qualifications

- Board certified as a psychiatrist or as a PMHNP.
- Experience in an outpatient setting.
- Experience and desire to provide trauma-informed services.

- Must carry your own professional liability insurance and be willing to add Creekside Collaborative Therapy as an “additional insured” on your policy.

## Compensation

\$100 -\$200 per clinical hour. Payment is made twice a month based on what is collected from your clients and payor sources the previous half a month.

Please contact Michelle Lefco-Rockey, Co-Owner of Creekside, with any questions or if you wish to submit your resume. Thank you.
